RE: Notice of Relinquishment, Experimental Shaft,
Final Approval, ACT/047/001

Dear Jim:

Tosco Development Corporation hereby relinquishes the Notice of Intent to Mine, ACT/047/001 approved in 1979 and covering a proposed experimental shaft at Tosco Sand Wash Project. As you are aware, operations which were originally proposed under this permit have not been undertaken and no surface disturbance has occurred under the subject Notice. Tosco determined that a location to the North of the site covered by ACT/047/001 was better suited to the proposed activities. This new site is covered by the plan recently conditionally approved by the Board and finalized by your office on August 2, 1982. At our request, the Director of the Division of State Lands & Forestry has recently agreed to release Bond Number M-13-27-83 which secured reclamation activities at the site of ACT/047/001.

On August 4, 1982 Tosco sent a reclamation surety bond for the first phase of activity on the revised Sand Wash Development Shaft which was conditionally approved by the Board on July 26, 1982.

Thank you for your assistance in this matter.

Very truly yours,

William D. Shay, Jr.
Government Relations Specialist
